SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>.

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

Confirmed Global COVID-19 Cases – Per Worldometers COVID-19 Live Updates as of 01/19/21 at 1100 hours:

- 96,292,331 (+521,121) total confirmed cases in 219 countries and territories.
- 2,056,710 (+12,469) total deaths.

Confirmed United States COVID-19 Case – Per Centers for Disease Control and Prevention (CDC) as of 01/17/21 at 1000 hours:

- 23,653,919 total confirmed cases.
- 394,495 total deaths.

Confirmed California COVID-19 Cases - Per Medical Health Coordination Center as of 01/19/21 at 1100 hours:

- 2,996,968 (+23,794) total confirmed cases.

- Please see attached California Health & Human Services (CHHS) Agency / Cal OES Joint Situation Report for additional details.

Active Weather Warnings, Watches and Advisories by County:

<http://www.wrh.noaa.gov/hazardSummary/?state=ca&bycounty=1>

WEATHER KEY POINTS

01/20/21 - 01/26/21

Wednesday

- Winds are still strong across Orange, San Diego and western Riverside counties Wednesday morning, but will gradually begin to decrease throughout the day
 - Relative humidity will be low enough combined with the lack of recent rain to cause critical fire weather conditions
- Flash flooding is possible Wednesday in heavier showers and thunderstorms across Imperial, San Diego and Riverside counties
 - The heaviest rainfall is expected to occur over the San Diego County deserts and adjacent mountain areas, where 1 to 2 inches of rainfall is possible with isolated rainfall to 3 inches

Thursday-Tuesday

- Several weather system are expected to move into the state on Friday and and through early next week, bringing some light snow to the Sierra and generally light rain across the state
 - Confidence is low on the extent of precipitation, however the system does not look particularly impactful at this time until the Monday timeframe when more moisture moves into the state from the west
 - The next period of concern for potential flash flooding over the southeast California deserts is next Monday and Tuesday

CALIFORNIA WEATHER IMPACTS
